

# 900mm INTEGRATED INDUCTION DOWNDRAFT - BLACK GLASS FASCIA

SDDH1.1

valentina  
collection

## Cooktop specs

Cooktop dimensions (mm)	W898 x D510
Cook zones	4 zones with bridging
Flexi-zones	2 x Flexi-Zones
Safety Lock	Yes
Features	See page 2

Rangehood type	Induction Downdraft
Control	Touch control
Speed settings	4
Ducting diameter	200mm
Extraction type	Offboard motor
Motor*	SEM7XS316 / SEM71, SEM8 / SEM81
Filter	Aluminium mesh filter
Safety features	Auto-stop
Lighting	LED Light strip
Induction Countdown Control	Yes
Electrical requirement	32A / 7.4Kw
Dimensions (fully extended) (mm)	W815 x D77 x H300
Cut-out dimensions	W860 x D490
Warranty	3 years (6 years when Sirius ducting is used)

**INDUCTION  
SAFE**

**SPEED  
SETTINGS**

**ALUMINIUM  
MESH FILTER**

**LED  
LIGHT STRIP**

**EUROPEAN-  
MADE MOTOR**

**HANDCRAFTED  
IN ITALY**

\*Outdoor offboard motors have a marine grade finish as standard for added resistance to coastal weather elements.

## Ducting options

External venting  
(SEM8 shown)

- Can be used with SEM7 / SEM71, SEM8 / SEM81
- Use semi-rigid or rigid ducting, not fully flexible foil ducting.
- Fewer bends means a quieter and more powerful extraction.
- Extra 3 years warranty when Sirius ducting is used (total 6 years).
- See [support page](#) on Sirius website for installation videos and FAQs.

WARNING: technical specifications and product sizes can be varied by the manufacturer, without notice. Cut outs for appliances should only be by physical product measurements. The above information is indicative only.

## Cooktop Features

Single Cutout Design with Bevel Edge

Automatic Heat Up Function

\* Safety Lock

Timer Function

Over Heating Protection

Operating Time Limitation

Keep Warm Function

\* Pause Function & Recall

\* Flexi-Zone Function

Electronic Touch Control

Booster Function on all Zones

Easy Clean Induction Surface

Sleek bevelled edge

Touch slide control

Pot detection

### Speed

Induction takes less time to cook food because the pan heats up quicker. Electromagnetic activity in the cooktop causes the pan itself to heat up.

### Energy efficiency

An induction hob generates heat within pan itself, rather than a direct flame or electric element. This means less wasted heat and power.

### Safety & Lock

Induction hobs do not get as hot a flame burner as the heat is generated within the pan itself. They also have a safety lock to prevent unwanted use.

### Pause Function + Recall

The pause feature allows you to start and stop cooking with ease.

### Special Preset Programs

The cooktop has three easy-to-use special programs; 'Warming', 'Melt', and 'Simmer' for specific cooking operations.

### Cleaning

Since an induction cooktop itself seldom gets very hot, food doesn't burn onto it. This means a splatter or a spill just needs a quick wipe of the sponge.

### Flexi-Zones & Bridging

This feature allows you to combine two zones to heat larger pans.

### Power Boost (quick heating)

This program further reduces the cooking time of a certain cooking zone, by bringing the temperature to maximum heat level for 10 minutes.

### Automatic Warm-Up

This feature sets the cooking zone to the highest heat level for a certain period of time and then automatically switches back to the selected cooking setting.

### Residual Heat

This symbol will display when if the cooktop is still hot after being switched off.
